

ELLINGTON HOUSE IV

PROJECT BRIEF

To be home is a strong sense of familiarity and connection. It is to be completely at ease.

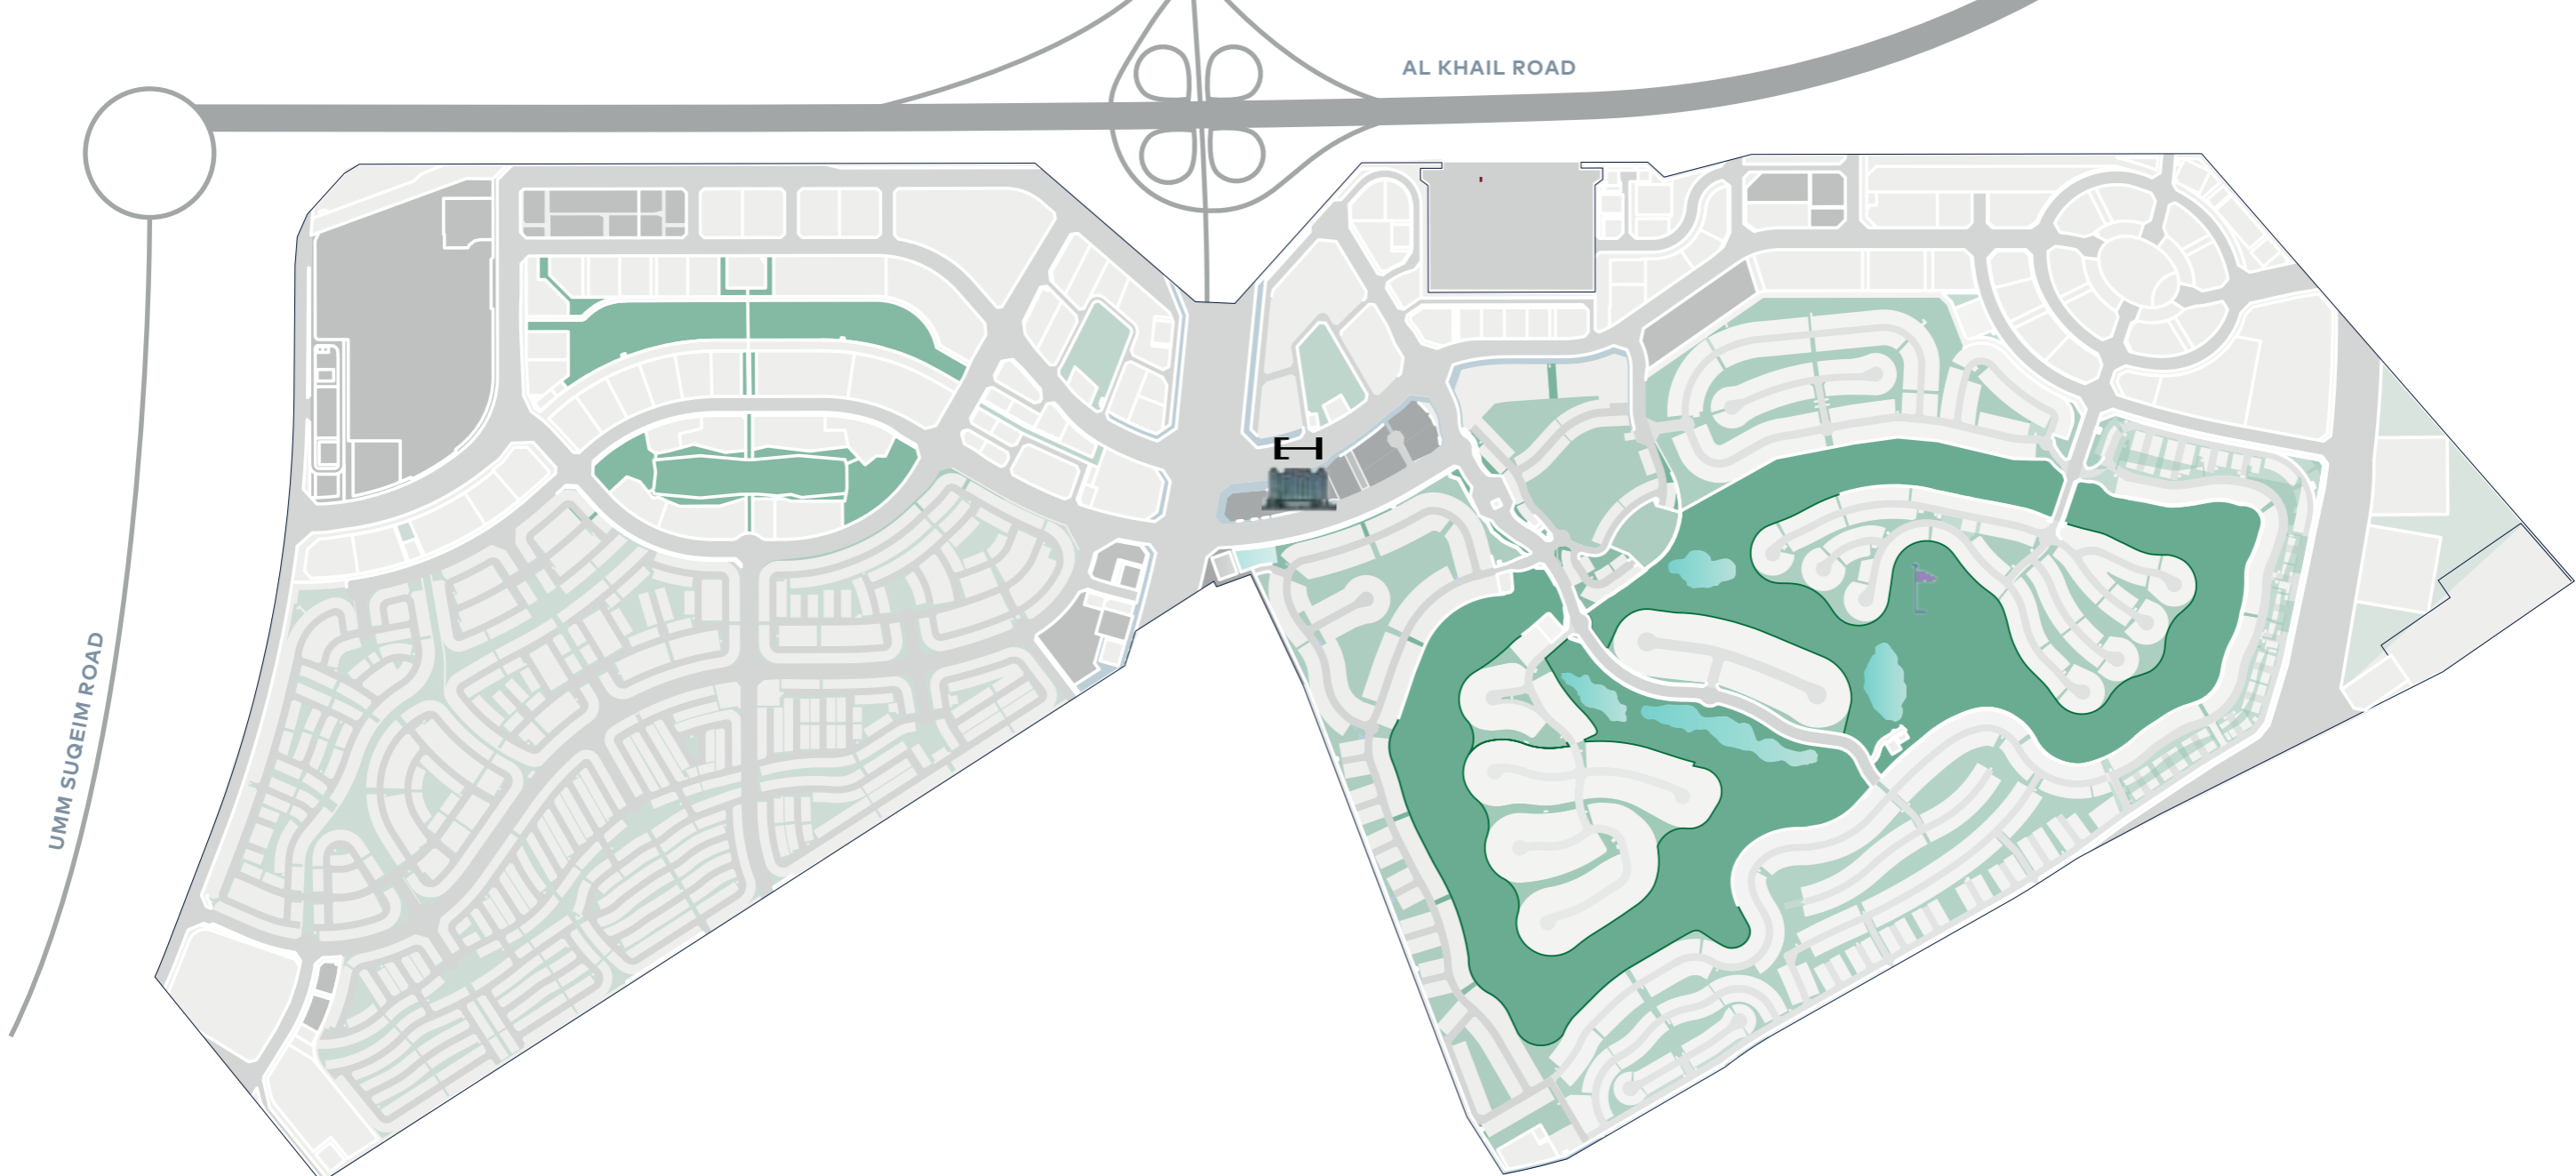

A FRESH PERSPECTIVE OF LIVING

As human beings, we instinctively seek out particular qualities in the surroundings we inhabit, such as space, security and comfort. But our natural desire for contentment goes beyond the physical — our environment also changes how we see the world in a psychological sense.

Light, space, sound and our closeness to nature alter mood and affect our state of being in the most profound ways. The place we can truly call home is found in the way it makes us feel.

Ellington House IV is a modern residential building designed with a minimalist approach, drawing inspiration from classic design principles. Its exterior is characterized by a sleek and contemporary aesthetic that seamlessly blends into the natural surroundings. The design is marked by a cohesive quality that is reflected in its distinct character.
