THE DEVELOPMENT

This spacious and spectacular location offers The Mansion a total surface area of approx. 3,811 sq.m.

The main entrance opens to an exclusive residential area, with easy access to a large, eight-car garage.

The south façade highlights the incredible, private creekside view.

Water Mansion Concept

FROM SITE'S HISTORY TO A
REFLECTION OF THE ELEMENTS

Considering the physical factors of nature, the building's design has been carefully crafted according to the site's climatological characteristics. Noting the sun's seasonal changes, the architecture has been adjusted to allow the most natural light in without overheating the indoor spaces. Accounting for the higher wind off of the creekside, the shape of The Mansion allows airflow to cool the building façades and outdoor spaces naturally.

Inspired by the nature and history of the area, the concept of The Mansion was made to enhance its natural beauty. The core of its design is ample outdoor spaces and open, airy indoor spaces. From the patio and swimming pool to the terraces and rooftop lounge, all allow for indoor and outdoor life to blend easily.
